With Scores 2 to 0 Against Them,  
Fighting McGrawmen Pull Game  
Out of Fire in Eighth

### BUSH DRIVEN FROM BOX

Attack of National League Champions Proves Too Much for The Yanks Defense

Polo Grounds, New York.—Full of the McGraw spirit of fight, the New York Giants battered from behind here this afternoon and took the first game of the series from the Yankees, 3 to 2.

After clipping away at the fast ball of Joe Bush, the bullet hurling ace of the American League champions, the Giants finally got to him in the eighth and drove him out of the box. Ryan replaced Nehf in the first of the eighth and Hoyt replaced Bush in the last of the eighth.

The play by play:

## J. C. CRAIG NAMED TO TRY ARSON CASE

Decatur County Judge Selected by Process of Elimination to Preside in Farlow Trial

### JACKMAN GETS JUDGMENT

Wins Suit Filed by Frank McCorkle to Set it Aside—Jean Gordon Divorced

Judge John C. Craig of Greensburg was decided upon this morning as being the trial judge in the case of the State against John D. Farlow of near Milroy, accused of arson, who was granted a change of judge from Will M. Sparks.

The selection was made this morning after the state struck off two names submitted and the defense struck off two, leaving Judge Craig as the lone factor to try the case. The state struck off Frederick Hines of Noblesville and Charles Lowe of Lawrenceburg, and the defense struck off Fred Gause of Newcastle and William A. Bond of Richmond.

It will be necessary for Judge Craig to come here and accept the bench in the case, and qualify. It will then be up to him to set the date for the trial.

This morning in court Judge Sparks heard the case of Frank McCorkle against John Jackman, Milroy people, in which the plaintiff brought suit to set aside a court judgment ordered last March in which \$4,100 judgment on a note was awarded against McCorkle. The court this morning dissolved a restraining order issued last week, and the sheriff can now collect the judgment as awarded in favor of Jackman last March.

A divorce was granted this morning to Harry B. Gordon who was plaintiff in a suit against Jean Gordon, heard several weeks ago, and which was taken under advisement at the time. The people reside in Connersville, and the case was venued here.

In granting the divorce, the court also awarded the defendant \$100 alimony on her cross complaint and \$50 attorney fees and weekly allowance of \$3 for the support of a child.

## CARTHAGE GIRL REPRESENTATIVE

Ruth A. Henly, 14 To Represent County At Riley Hospital Cornerstone Laying

### AT INDIANAPOLIS SATURDAY

Each County In State To Send Girl Who Will Deposit Something In Cornerstone

Ruth A. Henly, 14-year-old daughter of Mr. and Mrs. Rue Henly, Carthage, has been selected to represent Rush county at the Riley Memorial Hospital cornerstone laying at Indianapolis on Saturday afternoon at two o'clock according to W. E. Wagoner, county school superintendent, who was asked to send a representative from the local schools.

Each county in the state has been asked to send a girl between the ages of 12 and 14 to take part in the ceremonies. Each county will be allotted a portion of the box that is to be placed within the cornerstone, and Rush county will have something deposited there by the Carthage girl. Miss Henly was notified last night of her appointment and accepted the invitation.

In order to determine the representative from this county, the records of the girls in grades between the ages of 12 and 14 were searched for the school term last year, and the Carthage girl had the most complete record for her age.

Indications are that there will be thousands of persons, many of them from all parts of Indiana, in attendance at the laying of the cornerstone of the Riley hospital on Saturday afternoon, October 7, the anniversary of the birth of James Whitcomb Riley. The ceremonies will start promptly at 2 o'clock. Among the speakers will be Thomas R. Marshall, former vice-president of the United States, Governor Warren T. McCray, Marcus Dickey, Riley's biographer, Samuel L. Shank, Mayor of Indianapolis, William Fortune and others. Children will have an important place in the program. The cornerstone laying is attracting state-wide interests. It will remain for county chairman and workers to "cash in" on the large amount of publicity which will be sure to precede and follow the ceremonies.

T. M. Green, chairman of the Riley hospital campaign here, and Warder Wyatt are members of the program committee which arranged for the

## FILES SUIT FOR POSSESSION

C. L. Howell Plaintiff in Complaint For Possession of House

Charles L. Howell is plaintiff in a suit filed today in Justice Stech's court against Ned Crosby of Milroy, the complaint being for possession of a dwelling house, and for \$55 damages. The suit has been set for trial on Monday morning at 10 o'clock. The suit of C. H. Tompkins against Ned Crosby, set for trial Tuesday night, judgment was rendered by agreement for \$35 on an account.

William Archey who was held on a charge of passing a school back in his automobile, and who pleaded not guilty when arraigned, reappeared later in the day and changed his plea of guilty, receiving a fine of \$1 and costs.

## TAX RATE IN ONE UNIT IS LOWERED

Jackson Township Only One in County Where Levies For 1923 Will be Less Than 1922

### THERE'S A REASON FOR IT

Higher Rates Elsewhere Due to Decreased Valuations With Exception of Rushville City

The tax rates for 1923 in all of the taxing units of the county have been computed at the county auditor's office and reveal increases in every township and other taxing units with the single exception of Jackson township.

The higher rates are due in all but one instance to decreased valuations, because in practically every taxing unit of the county, the 1923 levies will raise more money than the lower rates raised this year.

The increase in Rushville city is not due to lower tax assessments because the total valuations here for next year are practically the same as this year. The increase of twenty-two cents will make the amount collected from each taxpayer more next year.

Jackson township is the only taxing unit in the county where the 1923 rate will be less than the one this year. There is a reduction of fifteen cents, this year's levy being \$1.18 and next year's \$1.03. This is due to a large surplus being created this year on account of a rate made last year to anticipate the needs of a new consolidated school building.

Walker township shows the biggest advance, which amounts to ninety-one cents. Anderson township's rate goes up forty-seven cents and the other increases vary from ten to thirty-four cents.

The completion of the tax rates was made possible when the town boards at Carthage and Glenwood authorized the county auditor to use the 1922 local levies for next year.

The new rates compared with this year's levies are as follows:

Tax Units	1922	1923
Carthage	1.70	1.99
Ripley	1.43	1.73
Posey	1.44	1.62
Walker	1.59	2.50
Orange	1.68	1.76
Anderson	1.85	2.32
Rushville	1.25	1.35
Jackson	1.18	1.03
Center	1.17	1.43
Washington	1.20	1.38
Glenwood	1.74	2.04
Union	1.32	1.66
Noble	1.30	1.52
Richland	1.36	1.51
Rushville City	2.15	2.37

## COMMITTEEMEN ARE GUESTS AT DINNER

Republican Organization Meeting Attended By District Chairman And Rep. Elliott

### REGISTRATION DISCUSSED

Republican precinct committeemen of the county were guests at dinner at the Scanlan House Tuesday evening when an organization meeting was held.

Attending the meeting were George A. Elliott of Newcastle, sixth district chairman; Richard N. Elliott of Connersville, republican candidate for congress in this district; Charles Remy of Indianapolis, republican candidate for appellate court judge, and Glen Miller, republican county chairman.

Organization for the coming election was made the sole topic of discussion and much of the time was devoted to checking up on registration figures. The republican organization has made an effort to register every voter before the time expires to qualify for the November election. The last chance to register will come next Monday when the second session of the permanent registration board will be held. Persons who are not registered by the time the board closes next Monday evening will not be permitted to vote.

## SUSTAINS A BAD INJURY

George Cox, Drayman, Suffers Sprained Ankle in Accident

George Cox, who resides at Third and Spencer streets, and is employed on the Elsbury Pea transfer and drayage line, sustained a painful injury late Tuesday afternoon, when he received a badly sprained left ankle, but no bones were broken.

The truck on which he was riding was backing up into the yard at the home of Dan Kinney in West Seventh street, when it skidded on the traction rails, and struck a telephone pole, breaking it off, and causing it to fall across his left foot. At first it was believed that his bones were crushed, but an examination revealed a badly sprained ankle and ligaments.

## DETERMINED TO PAY DEBT IN FULL

Great Britain Will Settle, Reginald D. McKenna Told American Bankers Convention

### OTHER NATIONS CAN'T PAY

Former British Chancellor of Exchequer Says They Must be Given Some Time

By HERBERT WALKER  
(U. P. Staff Correspondent)

New York, Oct. 4.—Great Britain is determined to pay in full her war debt of more than \$4,000,000,000 to the United States, Reginald D. McKenna, former British chancellor of the exchequer, and a leading authority on international finance, declared in a speech here today to the convention of the American Bankers' Association.

Other European nations, however, will be able to pay only a small portion of their debts, which with the British obligation now total approximately \$11,000,000,000 the Britisher said. For these countries he urged a definite postponement of any debt payments.

Germany, he predicted, never will be able to pay the huge reparations assessments of \$32,000,000,000. Attempts of any allied powers to force Germany to pay this amount would wreck international trade, he argued.

"I can unhesitatingly assert England will pay her debt in full."

## SAMUEL L. TRABUE IS DEFEATED BY ONE VOTE

Rushville Man Loses in Race For Grand Outer Guard at Knights of Pythias Grand Lodge

### COL. DOLPH FARR IS ELECTED

Samuel L. Trabue of this city was defeated by one vote for the office of grand outer guard at the meeting of the Knights of Pythias grand lodge in Indianapolis late Tuesday afternoon.

His opponent was Colonel Dolph Farr of Edinburg, who received 509 votes to 508 for the Rushville man. Col. Farr, who is well known here for his work in the Uniform Rank as well as the subordinate lodge, was a candidate for the same office last year, but was defeated.

The office of grand outer guard is a stepping stone to the highest Pythian office in the state, that of grand chancellor, because the grand lodge officers are advanced each year, the grand outer guard being the only one elected. Mr. Trabue's friends believe his strong race this year will put him in line for next year.

Rushville men both in and out of Pythianism made a valiant fight for Mr. Trabue. One of the features of his campaign was a series of whistling solos at the Denison hotel in Indianapolis Monday night by Paul Spivey of this city. O. P. Wamsley played the piano accompaniments for the solos.

## BIDS FOR PAVING ALLEYS REJECTED

Council Instructs City Engineer to Compute Costs and Turn Them Over to Treasurer

### TO OPEN WILLOW STREET

No Remonstrances Filed Against Assessment—To Install Heating Plant in City Building

Bids for the paving of two alleys between Fifth and Sixth and Main and Perkins streets, were rejected Tuesday night when the city council met in regular session, and the city engineer was ordered to affix all costs accruing in the matter against the property owners and turn the bills over to the city treasurer for collection.

The council received bids for the improvement with concrete of the two alleys at a special session last week, but only one bid was received and the total amount of the bid was \$500 in excess of the estimated, cost which would have made acceptance unlawful, and the matter was deferred until last night.

By rejecting the bids, it makes the second time within a few years that the alleys have come up for paving. The first time the contract was awarded, but was not carried out on account of an increase in the price of cement, which also was responsible this time. It also is understood that the costs for the previous petition was never paid, and all of the costs will be figured up at this time.

No remonstrances were filed against the assessment role for the opening of North Willow street, from the Pennsylvania railroad to Tenth street, and steps will be taken now to improve the street with curb and gutter, and gravel. The plans for the improvement will be brought up at the next meeting, and in all probability the work will be pushed before winter.

The councilmen also decided to install a steam heating system in the city building which houses the fire department, sleeping compartments for the firemen, and the room used as a council chamber and police court. The matter was left in the hands of the fire committee with power to act.

It was decided that the city will buy the equipment such as the boiler, pipe and fittings and radiators, separately, and the firemen, and other city employees will do the work of installing the heating plant. It was pointed out that this would save the city between \$500 and \$600 on labor, by not allowing the contractor as a whole to a firm.

The council also placed their order Continued on Page Six

## HEAD OF EVANSVILLE COAL COMPANY KILLED

John A. Koch, 53 Dies of Gunshot Wounds Said To Have Been Inflicted By Frank Hoch

### CAUSE OF TROUBLE IN DOUBT

Evansville, Ind., Oct. 4.—John A. Koch, 53, president and manager of the M. Hoch Coal Company, died at 5:10 a. m. at a hospital here of gun shot wounds which, police say, were inflicted by Frank Hoch.

Hoch is a brother of Margaret Hoch secretary and treasurer of the coal company.

Koch was shot about 5 p. m. yesterday when he and Hoch met in a cigar stand across from their coal yards.

A charge of first degree murder was placed against Koch today.

"Frank did it to protect me," Miss Hoch said immediately after the shooting. Persons familiar with affairs of the coal company said business troubles was the cause of the shooting. Police claim white male was to blame.

There are now four men in the Vandenberg county jail charged with murder.

## SAID TO BE PROBING DEATH OF A FARMER

Grand Jury Reported Today To Be Making Investigation Of Demise Of W. B. Wagoner

### DEATH OCCURRED SEPT. 21

The grand jury today was holding forth in a busy session in the court house, with witnesses being from Orange township, for the most part being relatives of William Bracken Wagoner, a prominent farmer who expired September 21, after having been ill for only 36 or 48 hours.

The nature of their probe was not disclosed, but indications pointed to the fact that the attention of the grand jury was being directed in some manner to the death of the farmer. Among the witnesses to testify this morning were W. E. Barnum, county coroner; Franklin Wagoner, a brother of the deceased; children of the deceased, and the widow.

The cause of the death was given as dilation of the heart, but according to the death certificate placed on file, the coroner did not conduct an autopsy, and if the grand jury has cause for the belief of foul play, they may order his body exhumed, and the contents of his stomach analyzed.

It is expected that the grand jury would make a report of their findings late today.

By HENRY L. FARRELL  
(United Press/Sports Editor)

New York, Oct. 4.—Difficulty in getting Jack Dempsey and Harry Wills into the ring to settle the heavy weight championship question has been attributed to numerous causes.

It has been said that Dempsey is afraid of his colored challenger and that he wanted the bout delayed at least a year, with the idea that he would have a better chance to retain his title if Wills could be kept waiting until next summer.

However, it has been learned from the most reliable information that Dempsey was eager to give the colored man a chance this summer, but that he was prevented by the activities of Republican politicians.

The administration at Albany did not want the fight staged before election time, because the reform element would get up on its rear legs if the bout came off and the liberal element would be just as provoked if any official obstacles were placed in the way, according to this story.

Jack Kearns wanted the fight staged in New York and when Wills submitted an official challenge, Kearns came immediately to New York to accept. Some hitches arose and the rumor was spread around that Governor Miller would not sanction a mixed bout.

This rumor had to be stopped, because of its effect on the colored voters of New York. At the last election, Mayor Hylan carried two big districts of the colored settlement and it was the first time that those districts had turned from the Republican party. To counteract the Democratic propaganda being used in the colored districts, Governor Miller then said that he had no objection to a fight between a white man and a colored man and that he hoped the better man would win.

Attention was then drawn by the Republican leaders that the party would be in danger up state, if the fight were staged before election and it would create dissension in the ranks in New York if the commission would not allow the bout to be staged.

The only way open was to throw some other obstacle in the way. The ideal way was to have it appear that Dempsey didn't want to fight. Kearns was sounded out and on the promise

that he could have the fight in New York next summer, he agreed to take the role of holding the bag. Kearns figured that if the Republicans won he was sure of his position and if the liberal Democrats should win, he would be running no risk.

Kearns then let it be known that the champion wanted \$500,000 to fight and that he wasn't particular about fighting until next summer. He was severely criticized and the champion was accused of "stalling for time and trying to cloud the real issue by talking of set-up fights with Greb, Willard, Brennan and Carpentier."

Finally the sharp tongues worked under the hide of Kearns and he said he was willing and ready to fight on two weeks' notice, but that no promoter had made him an offer.

That was a harmless statement until John O'Connor, the head of the club at the Polo Grounds, came through with an offer for the fight. The commission had forced Dempsey to sign an agreement, had unofficially given its approval for the mixed bout and a promoter was willing to stage the bout.

Kearns could do nothing more, but the commission then delivered another punch at the bout by naming impossible conditions. The chairman of the commission asked for an arena that would seat 100,000 and there will be nothing of that size in New York until next summer, when the new Yankee stadium will be available.

Another political stroke was made when the commission demanded 40,000 seats at \$2. The ward workers told the voters in the colored district that the commission and the Governor knew they weren't making a lot of money and that they were all anxious to see the fight and they would make it their business to see that the poor colored man got to see that fight of all fights.

That ended the negotiations. No more offers were made for the fight. Kearns arranged to get Dempsey out of the country until the first of the year and the politicians are resting easily until after election.

The fight is sure to come off but it will not be until next July and the Yankee stadium probably will be the site.

## ISSUES FIRST CALL FOR BASKETBALL MEN

Coach H. W. Jones of High School  
Announces That First Practice  
Will Be Held Monday

### 100 CANDIDATES EXPECTED

Coach H. W. Jones of the High school basketball squad announced today that the practice would begin on next Monday, and that approximately 100 players have signified their intentions of trying for the team.

It will require hard work for the coach to eliminate the weaker players and gradually reduce the squad. The practices will be held after school and at nights, and the coach has requested that only those who are trying for the teams to report for the practices, which will be held privately.

The coach expects to reduce the number of applicants, and by the time that the first game is to be played on Nov. 3, to have a squad of 16 men, which he will carry during the first few games, in order to place a definite line-up in the field.

Indications this year point to a winning aggregation, as there is said to be enough material to have a good first and second string team at all times.

### With The Big Ten

#### Northwestern

Intensive training was under way by Northwestern football warriors this week. With the memory of a defeat by Bebit last year, Northwestern is doing its best to see that it doesn't happen again next Saturday.

#### Illinois

Signal drills and forward passing work by the wing candidates occupied most of the early week training. Rube Clark, injured Saturday will be out of the line up for two weeks. Ted Richards is back after one of the end positions.

#### Ohio

Indications are that a big shake up is due at Ohio. The coaches are frankly disappointed with the showing of the team. The scrubs have repeatedly made long gains and played rings around the first string men. The ends are the greatest worry.

#### Indiana

The entire squad is plugging away at football fundamentals. Coaches are determined that the first rules of the game be mastered before passing on the finer points.

#### Michigan

Secret practice went into effect today in preparation for the opening game with Case next Saturday.

#### Chicago

The first team was thrown together for the first time yesterday in a bitter scrimmage with the freshmen which wasn't particularly successful. The freshmen put up a stiff fight and coaches were anything but satisfied with the first string showing. The entire squad is in the grip of an epidemic of colds.

#### Iowa

Heat and a long crippled list are slowing up football practice here. Light signal drill and some rather peppy dummy charging were the order of the day yesterday.

#### Minnesota

Intensive training with hours of signal work was scheduled for this week, in preparation for the opening game against North Dakota next Saturday.

## Decides on Best Life Insurance

"Five years ago I was refused life insurance because of my heart symptoms. Doctors said it was caused from a pressure of gas that came from my stomach, but their medicine did not help me and I was getting worse all the time. Three years ago my druggist recommended Mayr's Wonderful Remedy. I took a course of it and believe it is the best life insurance anyone can buy. It helped my trouble at once." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by druggists everywhere.

### Do You Have Pains or Backache?

Read What This Woman Says About It:

South Bend, Ind.—“Dr. Pierce’s Favorite Prescription is the only medicine I ever found that gave me any relief. I was suffering for some time with inward weakness. Through this I became a nervous wreck and was so weak and ‘all in’ I could not do my work. I had backaches and pains in my sides. Neither the doctor’s medicine nor any other seemed to touch my case or give me any relief. I at last decided to take Dr. Pierce’s Favorite Prescription and from the first it seemed to give me new life. It completely relieved me of my weakness and improved my general health in every way.”—Mrs. A. Hapner, 527 E. Monroe St.

### CHINA HAS DEBT WITH NO CREDIT

Owes Two Billion But Is Unable To Negotiate Loan Without Sufficient Security

#### IS SERIOUSLY IN NEED

The Customs Is The Only One Good Security Which Remains And Is Now Under Rigid Control

By R. G. Marshall (U. P. Staff Correspondent)  
Pekin (By Mail to U. P.)—China’s inability to get a substantial loan, either foreign or domestic, at a time when she needs it seriously, is explained by a report of her financial status, compiled by Chinese and members of some of the legation staffs.

China owes in round numbers \$2,000,000,000 and of this total, \$440,000,000 is unsecured, or the security is wholly inadequate.

The remainder is secured by the customs, such salt revenues as have not been seized by the provinces, the railroads and the telegraphs.

The largest single unsecured debt is to the Nishihara banking group in Japan, which loaned, without asking security, \$150,000,000 when the Anfu or pro-Japanese government was in power.

A year ago the unsecured loans did not exceed \$200,000,000 but since that time the provinces have seized the salt fields. Wu Pei-fu seized the revenues of the Peking-Hankow railroad and Chang Tso-lin seized the northern half of the Peking-Mukdon railroad. Wu Pei-fu also seized a portion of the telegraph revenues. These government enterprises have had a measure of foreign supervision to insure reasonable efficiency, but the properties have been seized by the military despite the protests of foreign investors.

Just one good security remains, the customs. That source is under rigid foreign control and being established mainly in port cities accessible to foreign gunboats, is in little danger of seizure.

The customs is taxed to the present limit by foreign loans, only a small portion each month being available for the government. An increase of one and one half per cent is soon to go into effect, but most of the increase, according to the Washington Conference agreement, must go for liquidating the foreign debts.

At the lowest estimate it requires \$3,500,000 a month to pay the country’s bare administrative expenses and the government heads can find but \$1,000,000.

The military expenses must wait under any condition and this is nine tenths of the whole governmental expense of China.

### SMALL CROWD OF FANS AT THE GATE

Line-Up For Rush Seats To Opening Game Of World Series Smallest Within Memory

#### MANY FANS DISCONSOLATE

Sorry There Was No Jam In Which To Participate—Several “Cops” For Each Fan

By CARL VICTOR LITTLE (U. P. Staff Correspondent)

Out Side The Polo Grounds, New York, Oct. 4.—Tony Caravella, famous world’s series police, officially declared the line-up of fans for rush seats to the opening game of the world series today to be the smallest within the memory of Casey Stengel.

At 8:30 this morning, 103 bleacher aspirants were yawning and stretching on their camp chairs and soap boxes and wondering if they may be St. Louis had won the series and they hadn’t been told about it.

The pre-game ticket line was so short that scores of other fans disgorged in haste by each arriving “L” train, gave the patient waiters the merry ha ha, and departed to seek comfortable hostedries until a “real world’s series line” should form. Many baseball fans were disconsolate because there was no good natured jam in which to participate. At that, just to add to the wonder that grew more rapidly than the straggling line, Philadelphia sprang the big surprise of the series.

Jack Lester of 2629 South Philips street, Philadelphia, was the first fan in line. He had his soap box tucked up tight against the big gates promptly at 3:30 a. m. While this phenomenon was puzzling the three or four hundred police on duty all night at the grounds, Moe Colomon, from Brooklyn, checked in as No. 2, and cuddled up to Lester. Jack likes the Giants and Moe the Yanks, so they had something to talk about until W. R. Graves, from Guthrie Oklahoma, came along and created a crowd.

The first lady of the line was Irene Henderson. She breezed up about dawn confessed that the boss for whom she stenogs had given her the day off and she tucked herself comfortably into line about 80 souls away from the fence.

Then an old timer, known to early birds of series lines since Frank Chance wore side whiskers and Cavorted around first base out in Illinois, showed up and was given a heart cheer by a man who afterwards said he was talking in his sleep and had dreamed Babe Ruth hit a homer but ran the wrong way around the bases.

This veteran was Dr. A. L. Budreau of Pittsfield, Mass. Doc and Mrs. Budreau motored over for the great event; the better half of the family heading for Fifth Avenue while her husband got into line at 84, and declared himself for the Yanks.

A. J. Bestedt of Jersey City; Doyle Ellis, Allen, Neb., and W. R. Prince of Memphis, were among the earliest birds, with Roy Paul, of Des Moines, Allens Vandavere of Trenton, and D. F. Donhey of St. Albans, N. J., not far behind. Indications were that the wise crackers of Hickville-On-The-Hudson, stung last year by preseries stories of the last knot-hole being sold out four months in advance had decided to blow down about game time and walk into their seats. There were no fights.

—Mrs. Mart Bever has returned to her home in this city after a visit with relatives in Kokomo, Ind.

—Mr. and Mrs. Richard Gehrich have returned to their home in Cincinnati, Ohio, after a visit with his aunt and family, Mr. and Mrs. Jacob Meyer.

#### Suiting Place to Porter.

Sir Richard Moon, the English railway magnate, is said to have been very precise in small matters. It is told of him that when traveling up to town one day by his line he noticed that the porter at Ealing shouted “Healing” and the porter at Hammer-smith “Ammersmith,” and that the first thing he did on reaching his office was to give instructions that the two men should change places forthwith.

## DETERMINED TO PAY DEBT IN FULL

Continued From Page One

lan's determination to honor her bond in full," McKenna said, "I believe I am justified in asking you to treat England's debt to the United States as certain to be provided for."

McKenna's statements, although he said he was speaking personally, are regarded as significant in view of the fact that negotiations to refund the British debt to the United States are to be started soon with the American debt refunding commission.

"The inevitable conclusion," he said, "is that these international debts are far too great for the capacity of any of the debtor countries except England. She alone in her accumulated foreign investments has adequate resources with which to discharge her liability to the United States. Of the others, France has the greatest resources, but they are, I believe, quite insufficient to meet her obligations."

"The whole subject requires a rational consideration by the creditors, who must keep steadily in view the immediate effect of the payment of these debts on the general trade of the world."

McKenna's statement in this regard was in general accord with that of American speakers before the convention and with the views of many of the delegates.

## LICENSED TO WED

A marriage license has been issued to Obed J. Coffin and Mrs. Grace E. Johnson, both of the parties residing in Hancock county.

## LONDON HAS VAST JEWEL ROBBERIES

Believe Crook is at Head of an International Protective Organization Of Crooks

### THE PLUNDER VANISHES

J. W. Bell Says "Moriarty" is The Financier And Brains of Thieves Who Work For Him

By David L. Blumenfeld.  
(U. P. Staff Correspondent)  
London, Oct. 4.—A Napoleon of crime.

Great jewel robberies have been the outstanding features of this London season, robberies so huge that Scotland Yard itself admits that these robberies are the work of a mastermind, a super-crook.

Newspapers are likening this super-crook to Professor Moriarty—Conan Doyle's famous fiction character.

Scotland Yard sleuths have already named the unknown super-thief "Moriarty." They are fully convinced that he is at the head of an international protective organization of crooks, which plans burglary, safe breaking and jewel stealing on an unprecedented scale.

"Moriarty," they say, has a town house and a country house, a fleet of motor cars, and a host of friends, straight and crooked, in London's best society. They do not know what Moriarty looks like. He may be a lord, for all they know, but they are convinced that he is a man high in society.

J. W. Bell one of London's leading assessors, claims to know the man, but dare not give him away. All he will say is that "Moriarty" is the financier and the brains of the thieves who work for him.

"Moriarty," Bell claims, has women agents as well as men—some of them, he declares, are titled. They will watch an intended victim for months, trail him across continents, work their way into his homes as maidservants or confidentes, until the time is ripe to strike.

Detectives declare that in all the latest big jewel hauls the victims have been shadowed for months.

Here are a few of the big "jobs" which have taken place this season:

Mrs. J. Byrne, an American, robbed of \$60,000 worth of jewelry.

Business man's wife robbed of \$20,000 worth of jewels in a big hotel.

World famous collection of gold coins stolen from the Albany apartments, London.

Theft of thirty pearl necklaces from a fashionable jewel store.

Robbery of 130 gold snuff boxes and ruby set goblets from a house on the Brighton Road.

In no case has there been any trace of the missing valuables. Usually in the case of common criminals at least "part of the booty turns up here on the continent."

Every day the newspapers bag-nerhead jewel hauls. Recently two women said to be agents of "Moriarty" walked into a jewelry store and asked to be shown a gold bag. When the bag was produced the two girls, both of whom were pretty and stylishly dressed, asked the shop assistant to weigh the bag. The young man retired to the back of the shop, and the girls calmly put their hands through the partition separating the window from the shop and scooped up two trays full of diamonds rings valued at \$95,000.

When the young man came back he noticed nothing, as the partition had been closed after the theft. The girls calmly asked the weight of the bag, and, being told, declared it was too expensive.

They smiled sweetly and walked out. They have not been seen since, but police say they answer the description of "Moriarty's" most aristocratic women assistants.

London is echoing with the theft from a married couple living in Cornwall of the following: Twelve diamond brooches, rope of 284 pearls, gigantic ruby, formerly in the fez of a famous Shah of Persia; other jewels valued at \$50,000.

And again the police are baffled. Rewards offered already run into tens of thousands of dollars, but the police say such rewards are useless.

The master mind, this Napoleon of crime, pays his agents so well that at a paltry bribe they turn up and ayo-not -Theys' monisfat'mw their aristocratic noses.

Advanced Centuries. Seven centuries ago Britain could not clothe herself; today she clothes more than half the world with the produce of her cotton spindles and her wool looms.

Chicago Oct. 4.—America Won the war—Sir Walter Wakefield, former Lord Mayor of London, says so.

Speaking before a large audience here Wakefield was emphatic in his statements.

"You won the war for us; we Englishmen say it from our hearts," he said.

"America arrived just in time with its two million and a half men. The greatest achievement of the war which history will record is the fact that general Pershing transported 2,000,000 or more men to Europe virtually without accident."

## ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.

**Horse Features at Mystic**  
 "Tony," the quadruped, made famous by the skillful horsemanship of Tom Mix, is the featured performer in the next production of that popular Fox star. "Just Tony," which will be seen at the Mystic today, is based on "Alcatraz," the novel from the pen of the wellknown Max Brand. It tells the story of a wild mustang, the leader of his desert herd, who seeks vengeance for the cruelties which man has inflicted on him, but who abandons his hatred that he may come under the proprietorship of the one man in the world who befriended him.

He was a horse of mystery—wild, determined, and the leader of his herd of desert mustangs. By night he wrought vengeance on man for the cruelties of the brand and incarceration. He opened corrals and liberated the enslaved horses; he trampled fields of grain and destroyed their fruitfulness; he fought mankind with the mute tenacity of a mistreated animal and was victorious. Then he encountered a different sort of man—a man who used neither whip nor choking lariat.

George Ade, American humorist, is a screen author now. He not only wrote the original story of "Our Leading Citizen," the Paramount starring vehicle of Thomas Meighan, which is to be shown at the Princess Theatre today and Thursday, but he went to California to collaborate in the writing of the scenario with Waldemar Young.

Although the author was unable to remain at the studio throughout the filming of the story, he kept in constant touch with the star and Director Alfred Green.

During his California visit, Mr. Ade conferred with the casting director in the selection of the cast which includes Lois Wilson, Theodore Roberts, William P. Carleton, Guy Oliver and others.

As the result of this intimate association of the author and the various production elements, "Our Leading Citizen" is a faithful reproduction of the story exactly as Mr. Ade wrote and intended it to be played. It boasts of a number of original subtitles by the author that are of the calibre that gained him his present place in the front rank of American men of letters. Lois Wilson is leading woman.

A SUN AND SHIELD:—The Lord God is a sun and shield; the Lord will give grace and glory; no good thing will He withhold from them that walk uprightly.—Psalm 84: 11.

Denouncing Capital

The inconsistency of men who denounce capital at the same time that they are benefiting by it, was very aptly stated by former President Theodore Roosevelt when he said: "It is foolish to pride ourselves upon our progress and prosperity, upon our commanding position in the international industrial world, and at the same time have nothing but denunciation for the men to whose commanding position we in part owe this very progress and prosperity, this commanding position."

In most instances the men who have won for the United States a commanding position in the international industrial world are men who began at the bottom, learned by personal physical work the details of the business to which they were to devote their lives, saved part of their earnings, invested those savings in the development of a business and furnished employment for large num-

bers of men in the production of commodities which were sold in all parts of the world. Those foreign markets provide the national income. The extreme radical who proposes that the workers shall own all industries, shall own and conduct the manufacturing plants, would never build up any industry to the extent of producing commodities in sufficient quantity for export, or, if so produced, find a foreign buyer and provide transportation from the United States to the foreign country. Men of vision, men of rare ability, when who are willing to work and save, have built up the large industrial enterprises and have sought markets for surplus products. Because those men have thus ably managed the enterprises they founded, they have become men of wealth. wealth they have accumulated, however, would be impossible without their providing employment for large numbers of men in the production of commodities that would not otherwise be produced. When the manag-

er of an industry has taken a small toll on each unit of production, the workers have drawn down a far larger sum in wages. These are facts so clearly evident that it is amazing that considerable numbers of workmen can be induced to give a sympathetic hearing to those radicals who denounce capital and who would confiscate the property which men of enterprise have accumulated by their ability, their industry, and their thrift. To destroy those men to whom Colonel Roosevelt alluded as "the men to whose commanding position we owe our progress" would be not merely an injustice to them but a still greater injury to the men who heretofore have enjoyed the benefits of the employment and the wages which those men have made possible.

U. S. IS TARGET OF FOREIGN ANIMOSITY

Senator Caraway Declares They Quit Knocking Each Other Whenever U. S. is Mentioned

RETURNS FROM 6 WEEKS TOUR

Washington, Oct. 4—European nations are consumed with jealousy and hatred of each other, but the United States is the special target of their animosity, Senator Caraway, Arkansas, democrat, declared on his return from a six weeks tour of the continent.

"There is one grand chorus—a regular anvil chorus—against the United States over there," said Caraway. "They quit knocking each other and unite on us whenever the United States is mentioned."

Caraway, who with Senators McKinley, Illinois; Spencer, Missouri and Ladd, North Dakota visited the League of Nations meeting at Geneva, said they were all favorably impressed with the way the league functioned.

"McKinley," said Caraway "almost joined it at once. And that's going some for a Republican."

## LAW ENFORCEMENT FOUND IN STATE

R. A. Haynes, Federal Prohibition  
Commissioner, Compliments Officers  
In Indiana After Visit

### MADE A PERSONAL SURVEY

Says That Morgan Has Conducted  
Many Raids In Booze Headquarters  
And Broke Up Gangs

Washington, Oct. 4—Returning from a personal survey of Indiana conditions, Federal Prohibition Commissioner R. A. Haynes issued the following statement:

"Director Bert Morgan, through a series of clean-ups in Lake county and vicinity has impressed the people of Indiana that the prohibition laws are to be strictly enforced in all parts of Indiana.

"I am highly pleased with the progress Director Morgan has made in constructive enforcement. He is one of the outstanding, highly efficient, result producing directors in the Prohibition organization. Surrounded with a conscientious clean-up organization of high grade men, he has set an example which has inspired and encouraged directors in other states. Revelations resulting in the apprehension of the George Remus whiskey ring and their conviction were due chiefly to the activity of Director Morgan, and the wholesome effect throughout the country was most salutary.

"The constructive progress of enforcement in a state which had produced presidents, distinguished statesmen and illustrious men and women, which has contributed so vitally to the welfare and patriotism of the nation, has been an inspiration in the mighty task before us, aiding immeasurably in moulding public sentiment, through which so much has been accomplished, and never before have I been more optimistic than today.

"It will be gratifying to friends of enforcement to know that Director Morgan is not only working hard in hand with Chief A. L. Melahn of the Indiana-Ohio-Michigan division of general prohibition agents, in running down conspiracies to effect illegal withdrawals, but is cooperating with public officials generally, receiving valuable aid from all of them from the governor down. I recall a visit to Indianapolis, when at a conference attended by the governor of the state, attorney general, secretary of state and a dozen other high state officials, Director Morgan and the prohibition authorities were tendered the fullest possible support, which support has been given in a most gratifying fashion.

"The people of Indiana are to be congratulated upon the helpful spirit of assistance which is being given enforcement in this state, backed as it is by every arm of the administration, including Indiana's delegation in both branches of Congress."

### OBITUARY

Mary Frances Jones, daughter of Charles G. and Julia Jones, was born in Rush County, Nov. 27, 1855, and departed this life Sept. 13, 1922, aged 66 years, 10 months and 14 days. When she was a small child her parents moved to Tipton County where she lived until her marriage to Byron T. Sampson, Dec. 14, 1876, when they came to Rush County to live. To this union one son, Clem, and a daughter Eva were born. They, with the kind and loving husband, little grand-daughter Mary Louise and a niece, Mrs. E. N. Todd, of Tipton County, the only near relative left of her family, with a host of friends, are left to mourn her loss.

She united with the Christian Church of this city at the age of 21 years and has been an active member ever since.

She has fallen sleep; She is resting at last; The pulse has grown still and the fever is past. She suffers no longer in heart or in brain. And the pain that so racked her shall not come again. She has fallen asleep, O! Mother 'tis past; Thank God as we weep, She is resting at last.

### CARD OF THANKS

Mr. and Mrs. John Moore are now living at their home 621 East Seventh street. And we kindly thank Mr. and Mrs. L. L. Allen, Mr. and Mrs. Gunn Haydon, Mr. and Mrs. Behr, Mr. John Ferguson, Mary Easley and Mr. Walter E. Smith for the insurance. Also others who so kindly helped us through our trouble and distress.

May God bless them all.

### WISE WOMEN

A famous medical man of ancient times states regarding his writings that they were but a collection of knowledge obtained from the "Wise Women."

Do you realize that in those times the women, and not the men, knew about the healing properties of medicinal plants, roots and herbs? From the earliest times, women had a knowledge of the treatment of disease and of the healing merit of roots and herbs.

Lydia E. Pinkham's Vegetable Compound was originated by a woman, Lydia E. Pinkham, and is now known and praised by women of all ages. It is prepared from roots and herbs having medicinal action of great value in the treatment of troubles women so often have.

## The Cash Value of Tractor Power

"TIME is the essence in good farming", writes Frank I. Mann, one of the most successful farmers in the United States. "To judge the value of a tractor on the farm it must be considered in relation to its ability to do farm work at the time to give most profitable return from the crops grown."

Mr. Mann goes on to show that farm work is subject to continual delays from adverse weather conditions, and the one great advantage of the tractor is in enabling the farmer to handle peak loads on time.

In one case cited, tractor power enabled the farmer to sow a good acreage of spring wheat on March 23, which early seeding gave him a return of 44 bushels per acre, thus illustrating the cash value of tractor power.

A tractor to do its work must have petroleum products.

The Standard Oil Company (Indiana) takes great pride in the fact that its organization is able to supply the needs of these tractors in 10 Middle Western states with petroleum products of superior quality.

No matter how unexpectedly the farmer's peak load may arrive, he will find that this Company has ever ready at his call such gasoline, kerosene and lubricants as he may need.

Owing to the isolation of many farmers and farming districts, this task of supplying petroleum products at dependable intervals is a big and often an exceedingly difficult one.

Nevertheless, the Standard Oil Company (Indiana), inspired by its obligation to the community, has always met rural needs for petroleum in a big way. The Company constantly is extending its operations to provide facilities which under all conditions enable it to meet the demands made upon it, and to guarantee a reliable and sustained service even in periods of stress.

## LAW ENFORCEMENT FOUND IN STATE

R. A. Haynes, Federal Prohibition  
Commissioner, Compliments Officers  
in Indiana After Visit

MADE A PERSONAL SURVEY

Says That Morgan Has Conducted  
Many Raids in Booze Headquarters  
And Broke Up Gangs

Washington, Oct. 4—Returning from a personal survey of Indiana conditions, Federal Prohibition Commissioner R. A. Haynes issued the following statement:

"Director Bert Morgan, through a series of clean-ups in Lake county and vicinity has impressed the people of Indiana, that the prohibition laws are to be strictly enforced in all parts of Indiana.

"I am highly pleased with the progress Director Morgan has made in constructive enforcement. He is one of the outstanding, highly efficient, result producing directors in the Prohibition organization. Surrounded with a conscientious clean-up organization of high grade men, he has set an example which has inspired and encouraged directors in other states. Revelations resulting in the apprehension of the George Remus whiskey ring and their conviction were due chiefly to the activity of Director Morgan, and the wholesome effect throughout the country was most salutary.

"The constructive progress of enforcement in a state which had produced presidents, distinguished statesmen and illustrious men and women, which has contributed so vitally to the welfare and patriotism of the nation, has been an inspiration in the mighty task before us, aiding immeasurably in moulding public sentiment, through which so much has been accomplished, and never before have I been more optimistic than today.

"It will be gratifying to friends of enforcement to know that Director Morgan is not only working hand in hand with Chief A. L. Melahn of the Indiana-Ohio-Michigan division of general prohibition agents, in running down conspiracies to effect illegal withdrawals, but is cooperating with public officials generally, receiving valuable aid from all of them from the governor down. I recall a visit to Indianapolis, when at a conference attended by the governor of the state, attorney general, secretary of state and a dozen other high state officials, Director Morgan and the prohibition authorities were tendered the fullest possible support, which support has been given in a most gratifying fashion.

"The people of Indiana are to be congratulated upon the helpful spirit of assistance which is being given enforcement in this state, backed as it is by every arm of the administration, including Indiana's delegation in both branches of Congress."

### OBITUARY

Mary Frances Jones, daughter of Charles G. and Julia Jones, was born in Rush County, Nov. 27, 1855, and departed this life Sept. 13, 1922, aged 66 years, 10 months and 14 days. When she was a small child her parents moved to Tipton County where she lived until her marriage to Byron T. Sampson, Dec. 14, 1876, when they came to Rush County to live. To this union, one son, Clem, and a daughter Eva were born. They, with the kind and loving husband, little grand-daughter Mary Louise and a niece, Mrs. E. N. Todd, of Tipton County, the only near relative left of her family, with a host of friends, are left to mourn her loss.

She united with the Christian Church of this city at the age of 21 years and has been an active member ever since.

She has fallen sleep; She is resting at last; The pulse has grown still and the fever is past. She suffers no longer in heart or in brain. And the pain that so racked her shall not come again. She has fallen asleep, O! Mother 'tis past; Thank God as we weep, She is resting at last.

### CARD OF THANKS

Mr. and Mrs. John Moore are now living at their home 621 East Seventh street. And we kindly thank Mr. and Mrs. L. L. ### WISE WOMEN

A famous medical man of ancient times states regarding his writings that they were but a collection of knowledge obtained from the "Wise Women."

Do you realize that in those times the women, and not the men, knew about the healing properties of medicinal plants, roots and herbs? From the earliest times, women had a knowledge of the treatment of disease and of the healing merit of roots and herbs.

Lydia E. Pinkham's Vegetable Compound was originated by a woman, Lydia E. Pinkham, and is now known and praised by women of all ages. It is prepared from roots and herbs having medicinal action of great value in the treatment of troubles women so often have.

# The Cash Value of Tractor Power

"TIME is the essence in good farming", writes Frank I. Mann, one of the most successful farmers in the United States. "To judge the value of a tractor on the farm it must be considered in relation to its ability to do farm work at the time to give most profitable return from the crops grown."

Mr. Mann goes on to show that farm work is subject to continual delays from adverse weather conditions, and the one great advantage of the tractor is in enabling the farmer to handle peak loads on time.

In one case cited, tractor power enabled the farmer to sow a good acreage of spring wheat on March 23, which early seeding gave him a return of 44 bushels per acre, thus illustrating the cash value of tractor power.

A tractor to do its work must have petroleum products.

The Standard Oil Company (Indiana) takes great pride in the fact that its organization is able to supply the needs of these tractors in 10 Middle Western states with petroleum products of superior quality.

No matter how unexpectedly the farmer's peak load may arrive, he will find that this Company has ever ready at his call such gasoline, kerosene and lubricants as he may need.

Owing to the isolation of many farmers and farming districts, this task of supplying petroleum products at dependable intervals is a big and often an exceedingly difficult one.

Nevertheless, the Standard Oil Company (Indiana), inspired by its obligation to the community, has always met rural needs for petroleum in a big way. The Company constantly is extending its operations to provide facilities which under all conditions enable it to meet the demands made upon it, and to guarantee a reliable and sustained service even in periods of stress.
